Willow Class Challenge Homework – Autumn 2026

Please complete one or more of the activities listed below by **Wednesday 16th December**. We can't wait to see some of your creations. Extra effort points will be awarded if you present your project to the class – Have fun!

Go on an Autumn leaf hunt. Can you identify the trees by looking at the shape of the leaves? 	Draw and label a picture of a building in your local area. 	Retell the sequence of events of the Great Fire of London (Year 1 &2) and present these in your own choice of media. 	Build a 3D model of a Tudor house. 
Research some interesting and fun facts about the human body including the five senses. 	Learn or make up a new song about the weather. 	Find your favourite book. This could be a non-fiction or fiction book. Be ready to tell the class what it's about and why you like it. 	Draw and label a map of your route to school. 
Find out about different kinds of jobs or work that people do in our local community. Are any of them affected by the weather? 	With the help of an adult, cook a sweet or savoury dish by following a recipe. Take pictures of your method and delicious creations! 	Write some instructions for how to look after a pet. Can you include diagrams? 	Using media of your own choice, e.g. pen, paint or materials for collage, create a weather picture.
